## From your President

Preparations for 47th Annual Conference of the Association of Plastic Surgeons of India (APSICON 2012) are well under way. As chairpersons of the organizing committee, I on my own behalf and on behalf of the organizing committee, extend you a cordial invitation to attend the conference. The Postgraduate Department of Plastic Surgery, Lucknow Plastic Surgery Club and the U.P. Chapter of APSI have come forward to host this annual mega event in the vibrant city of Lucknow – a city known for its scientific flavor, art, culture and culinary delights.

The theme of the conference has been chosen as Restore, Repair, Regenerate and Rejuvenate. Restore, what is missing – both in terms of form and function; Repair – what is abnormal or deformed and Regenerate – new tissue/tissues which are needed and rejuvenate to bring youthfulness. These are the essence of holistic approach to Plastic Surgery. The scientific program committee has developed a rich and comprehensive program, and the same has been uploaded on our web site. The emphasis shall be to encourage discussions. The operative workshop shall be held in the state of art modular theatres of our newly built Centenary Hospital. Three theatres shall be run simultaneously and the emphasis shall be to demonstrate common plastic surgery procedures. There shall be something of every one's interest going on all the time. Do not miss it!!

## Change in the Name of the Association

(Notice as per the bye laws)

Based on the inputs from several senior members, overseas colleagues, Hon. Health Minister and Health Secretary as well as following the Example of British Association there is a need now to enhance the sphere of the association which should be apparent in the name itself.

After deliberations the Executive Council has reached a consensus to suggest the name "Association of Plastic, Reconstructive and Aesthetic Surgeons of India". Also Association may write to the MCI to change the nomenclature of the degree of MCh or DNB as (Plastic, Reconstructive and Aesthetic Surgery)

This point will be discussed in General Body meeting to be held at Lucknow and resolution will be passed accordingly. Notice is being given to members as per the bye laws.

**(Notice as per the bye laws)**  
**Proposed Terms of Agreement between IPRAS-APS and APSI**  
**For initiating Asia Pacific Journal of Plastic, Reconstructive & Aesthetic Surgery (AP-JPRAS)**

## **From The ORGANISING CHAIRMAN – APSICON 2011 SUGGESTIONS FOR USE of the SURPLUS FUNDS ARISING FROM APSICON 2011**

*Dr. S. Raja Sabapathy, our immediate Past President and Organizing Chairman of APSICON 2011 gave a power point presentation on the above topic during the Executive Committee Meeting held at Mumbai on 25th March 2012. The summary of the talk is reproduced below:*

Dear Mr. President and Members of the Executive Committee

At the outset I thank all the members of APSICON 2011 for their participation which made APSICON 2011 a great success. We had a total registration of 749 persons, which included 124 trainees. The meeting was preceded by APSI 2005 - Ethicon sponsored course in Hand Surgery. It had 166 registrations but the participants were close to 350 members. The first 40 trainee registration fees were refunded. The meeting had 18 overseas faculties and had representation of surgeons from 22 countries. Over all it was a great success.

Apart from being an academic and social success, financially also it was a very successful meeting. I am happy to inform you that we have come out with a surplus of Rs. 55,61,396 . 88 a record so far. In continuing the healthy tradition, I have submitted an audited statement of accounts of the congress to every member of the Executive Committee and all the accounts in the banks corresponding to APSICON 2011 have been closed and the entire amount is now being handed over to the President, Secretary and Trustees of the Association during the Executive Committee Meeting.

### **Suggestion and Thought Process for Usage of the Funds**

“Riches are for spending” - Francis Bacon

As the quote of Francis Bacon goes, power of money that we create rests in the way we use it. The responsibility seems to be greater in magnitude, than the efforts that were required to collect it. Conventionally the surplus funds are utilized to create endowments, traveling fellowships, awards or orations to be delivered during APSICON.

As of now our trustees are managing 43 named corpuses. Many visiting professorships and traveling fellowship go un-utilized. There are no time slots available for new orations in APSICON. In view of this we feel that it would be futile to create any new corpus to mark the surplus as the Coimbatore or the APSICON 2011 fund.

We feel that the need of the hour is to help the specialty grow and its members to provide high quality care to the patients and improving patient outcomes. Taking all these into consideration, the organizing committee members of the APSICON 2011 propose the following. The model has been derived by analyzing the way funds are managed in American, British and other organizations.

We propose the setup of an **“APSI Educational Foundation”** to help the members of the APSI

- To provide the highest standards of care as accepted by peers around the world.
- To ensure its availability to everyone who needs it at the time they need it and
- To create leaders who will take the specialty into the future at a global level.

We propose that a group of members should be inducted to the Committee which will manage and direct its efforts. Many long standing overseas associations have such committees to look into such matters very actively. It should be like the "Think Tank" of the Association and its members could be the academic thought leaders of the specialty. The foundation will realize its function by:

- Help to improve the standards of clinical practice of Plastic Surgery in India through skill development programs.
- To be involved in the promotion of the specialty by increasing the awareness of plastic surgery among the public.
- Improve the outcomes of plastic surgery patients through research and development.
- Also to be a philanthropic arm of the APSI wherein we facilitate the availability of the services of the members to the needy and to the masses at times of crises both at national and international level.
- In this way it is possible that we will be able to make an impact in the global level and help India to lead the world.

What will the Composition of the Foundation?

The foundation will be led by the Chairman chosen by the Executive Committee. The Managing Trustee of the APSI Trust and the President of the APSI will be ex-officio members. The Committee will have a further 5 persons representing different sub specialties. The duration of the Committee could be 5 years.

Responsibility of the Committee

The members of the Committee must be willing to devote time and energy for the cause. Will be willing to lead, chair, collect and augment the funds of the endowment. This will not clash with the running of the annual APSICON and also not be influenced by the electoral changes in the Association. Members should be of proven academic standing with good accountability. Accountability, transparency and relentless efforts to reach the goals set will be the work mode of the members. It is preferable that the members to be selected by the Executive Committee and not by election.

What will be its standing?

The Committee will work under the umbrella of the Executive Committee and Trustees and they in turn will communicate to the General body of the recommendations. APSI Educational Foundation will not have any special registration. The trustees will manage the funds and the members of the Foundation will not have any role in the choice and mode of investment of the funds. The team will only give the directions to deploy funds to achieve the purposes in the vision statement.

We request the acceptance of this proposal for the creation of APSI Educational Foundation. There is no need to add any tags of Coimbatore or APSICON 2011. We presume that in future this will get contributions from future congresses and we could think of major initiatives to enhance the growth of the specialty. It is aimed that it will help to introduce best practices amongst the members and will be an effective arm for promoting the specialty among the public. In course of time, this would also be involved in evolving the system of examinations. This may set a trend for super specialty examinations.

*We moot this idea because we need to efficiently use the surplus we make every year. We must make every rupee count and every rupee work.*

*S. Raja Sabapathy*

Dr S. Raja Sabapathy,  
President - APSI 2011 and Organizing Chairman, APSICON 2011.

### Decision of the EC - "APSI Educational Foundation"

All the members of the EC appreciated the suggestion and the APSI Executive committee requested Dr. S. Raja Sabapathy to be the Chairman of the Foundation The Managing Trustees of the APSI Dr. Rajeev B, Ahuja and President APSI Dr. Arun K Singh will be the ex-officio members.

The following members were nominated to be part of the Committee:

- Dr. Mukund Reddy, Hyderabad,
